Professional Summary

MERN Stack Developer with 3+ years of experience developing enterprise-grade web applications using React.js, Node.js, Express.js, MongoDB, and Firebase. Experienced in RESTful API development, JWT authentication, database design, responsive UI, AI integration using OpenAI and Gemini APIs, performance optimization, Agile development, and Git-based collaboration.

Technical Skills

Programming Languages	JavaScript (ES6+), Python, SQL, HTML5, CSS3
Frontend	React.js, React Router, Redux Toolkit, Context API, Tailwind CSS, Bootstrap, Responsive Web Design, Material UI
Backend	Node.js, Express.js, RESTful APIs, API Integration, Middleware, Authentication, Authorization, JWT, Role-Based Access Control (RBAC), CRUD Operations
Database	MongoDB, Mongoose ODM, Firebase Firestore, Firebase Realtime Database, Data Modeling, Schema Design, Database Indexing, Query Optimization
Authentication	JWT Authentication, Firebase Authentication, Session Management, Protected Routes, Role-Based Access Control
AI Integration	OpenAI API, Gemini API, Prompt Engineering, AI Chatbots, AI Workflow Automation, Intelligent Recommendations
Cloud & Backend Services	Firebase Authentication, Firebase Storage, Cloud Firestore, Cloud Functions, Hosting
Tools & Platforms	Git, GitHub, Postman, VS Code, npm, Vite, Chrome DevTools
Development Practices	Agile Methodology, MVC Architecture, Component-Based Development, Debugging, Code Review, Performance Optimization, Cross-Browser Compatibility, API Documentation
Deployment	Netlify, Hostinger, GitHub Pages, Vercel
Concepts	MERN Stack, Single Page Applications (SPA), Responsive UI, State Management, Reusable Components, Secure API Design, JSON, AJAX, Asynchronous Programming, Version Control

Professional Experience

MERN Stack Developer <i>Jul 2023 – Present</i>	Rooks and Brooks Technologies Pvt. Ltd.
--	--

- Developed scalable MERN applications using React.js, Node.js, Express.js and MongoDB.
- Built responsive UI components and secure REST APIs with JWT authentication.
- Optimized MongoDB schema design and API performance.
- Integrated Firebase, OpenAI API and Gemini API into production applications.
- Worked on Billing, Construction, Healthcare, Charity and ERP platforms.
- Collaborated in Agile teams using Git/GitHub and participated in debugging, testing and code reviews.

Web Developer <i>Jul 2022 – Jun 2023</i>	Karka Software Academy
--	-------------------------------

- Built responsive web applications using React.js, Node.js, Express.js and MongoDB.
- Developed CRUD modules, REST APIs and authentication features.
- Improved UI responsiveness, application performance and software quality.
- Worked with Git, GitHub and Agile SDLC practices.

Projects

Business Management System

React.js — Node.js — Express.js — MongoDB — Firebase

- Developed a full-stack billing and inventory management system using the MERN stack.
- Built secure RESTful APIs, JWT authentication, GST billing, invoice generation, dashboards, and reporting modules.
- Optimized MongoDB queries and integrated Firebase services for secure data management.

Construction Site Management System

React.js — Node.js — Express.js — Firebase

- Developed a project management platform for attendance, material requests, engineer assignments, and ticket tracking.
- Implemented role-based authentication, real-time updates, PDF reports, and responsive dashboards.
- Improved workflow efficiency through secure API integration and cloud-based data management.

ReAge Healthcare Website

React.js — Vite — Tailwind CSS

- Designed and developed a modern healthcare website with responsive UI and optimized performance.
- Created reusable React components, interactive animations, and SEO-friendly pages.
- Improved user experience through responsive layouts and performance optimization.

AI Business Automation Assistant

Node.js — React.js — OpenAI API — Gemini API

- Integrated OpenAI and Gemini APIs to automate business workflows and intelligent content generation.
- Developed AI-powered chatbot and automation features using secure API integration.
- Implemented prompt engineering techniques to improve response quality and productivity.

Certifications

- MERN Stack Development
- React.js Development
- Node.js & Express.js
- Git & GitHub
- JavaScript (ES6+)

Professional Achievements

- Delivered multiple production-ready MERN applications.
- Built AI-powered business solutions using OpenAI and Gemini APIs.
- Developed secure REST APIs and responsive enterprise dashboards.

Education

B.E. Electronics and Communication Engineering

St. Xavier's Catholic College of Engineering, Anna University
CGPA: 8.1/10

Languages

Tamil (Native), English (Professional)
